Training Program on
Use of Internet as a Tool of Secondary Data Collection for research
Report

The IQAC of C. D. Jain College of Commerce ,Shrirampur was organized Training Program for "**Use of Internet as a Tool of Secondary Data Collection for research**" on 22nd Jan 2016 at 3.00 PM .Total 28 staff was present for this training program.

The training programme was chaired by Prin. Dr.Bhor L. D, Chief guest Dr. Gadhe D.P. (SSGM College Kopergaon) and Resource person Dr.Barhate G.H (Head, Research Center ,C. D. Jain College of Commerce ,Shrirampur.)

Dr.Gadhe mentioned in his speech that this college is providing multiple platforms for Staff except its curricular activities.

Principal Dr.Bhor expressed in his key note address that College provide all facility like Library ,Internet ,Computers to all Staff members and they are use of that facilities for research and their data collection.

Technical Session:

Resource person Dr. Barhate started his session with the brief introduction about collecting the data for research is very tough job but now days the collection of data is easy because of internet. He also explained that it is secondary method for data collection for research.

The use of Internet to aid research practice has become more popular in the recent years. In fact, some believe that Internet surveying and electronic data collection may revolutionize many disciplines by allowing for easier data collection, larger samples, and therefore more representative data. However, others are skeptical of its usability as well as its practical value. The paper highlights both positive and negative outcomes experienced in a number of e-research projects, focusing on several common mistakes and difficulties experienced by the authors. The discussion focuses on ethics and review board issues, recruitment and sampling techniques, technological issues and errors, and data collection, cleaning, and analysis.

Dr. Gawali S.N. proposed vote of thanks.
